

**NOW HIRING**

## 2nd Shift Die Caster / Shift Lead

<b>Department</b> Die Cast	<b>Reports To</b> Production Manager	<b>Location</b> Farley, Iowa
-------------------------------	---	---------------------------------

### About Us

---

Lund Manufacturing is a growing, ISO-certified die casting and machining company serving OEM customers across North America. We're looking for an experienced die caster who's ready to step into a leadership role on the floor.

### Responsibilities

---

- Set up and operate high-pressure die casting machines (aluminum and zinc)
- Monitor and adjust process parameters — metal temp, cycle time, spray, injection pressure
- Lead daily shift operations — assign work, keep production on schedule, drive accountability
- Perform in-process quality checks per work instructions
- Train and mentor new operators
- Communicate shift handoff notes clearly between crews
- Escalate equipment, tooling, and quality issues promptly
- Maintain a clean, safe, and organized work area
- Reinforce safety, housekeeping, and quality standards across your team
- Collaborate with systems-driven processes and continuous improvement

### Qualifications

---

**Required:**

- Die casting experience
- Demonstrated leadership ability — formal or informal
- Ability to read blueprints and use basic inspection tools (calipers, gauges)
- Familiarity with basic SPC concepts
- Strong communication and accountability

**Preferred:**

- Forklift experience
- Experience training or mentoring others
- Familiarity with ISO 9001 quality management systems

### What We Offer

---

- Competitive hourly wage based on experience (\$25, more depending on experience)
- Benefits package
- Opportunity to grow with a company investing in its people and future
- A team-driven culture where your work matters

**TO APPLY**

Send your resume, apply online at [www.lund-diecast.com/contact](http://www.lund-diecast.com/contact), or stop by in person.
